PROJECTS

Blood-Link: Real-Time Donor Logistics Platform | PHP, SQLite, JavaScript (ES6+), HTML5, CSS3

Engineered a location-based donor logistics interface to bridge critical blood needs with real-time donor availability.

Implemented a networked contact system and responsive UI for streamlined blood supply coordination.

UTS Replica & Tally Core: Specialized Application Engineering | Python (Tkinter), PHP, SQL

Developed replicas of commercial systems including a Universal Ticketing System with ticket-generation engine and a partially functional Tally Accounting clone, translating commerce workflows into software logic and GUI structures.

ACADEMIC EXPOSURE

- Editorial director for 2 consecutive years in RCNS |2024-2026
- Volunteer for Marketing Department in Ignite Club | 1st year
